---

Davis,

I appreciate the heads up on the schedule. I suspected this. Due to our Portland staff vacation schedules I have one person mobilizing from Bellevue for the Sunday through Wednesday oversight (one Bellevue and one Portland staff to cover two sediment boats). It would be good to know if there is only going to be one boat those days so I can call off the Bellevue person (she is planning to drive down there Saturday afternoon).

Kyle – please share info on the USCS survey when you get in tomorrow.

Thanks you,

Howard S. Young, LG | CDM Smith

Scott/Kyle/Howard,

Below is the list Ken would like to discuss with me tomorrow. I just called him back to let him know that the D/U figures and approval will not be approved until Kern's approval which will be at earlier Wed next week given his out of office. Howard, this will change their schedule as they were planning to get in water on 6/24. He's calling his crew now to make the necessary changes.

Another topic is the last bullet, we had talked about a USGS survey in one of discussions and Anne couldn't find the specific link. I think I remember this was brought up by Kyle (but could be wrong). They just need to link if we have it.

Thanks,

\*\*\*\*\*

**Subject:** Things to catch-up on.....

Davis,

If you have some time on Thursday here are a few items that we might want to catch-up on. Some of these items will be an update for you, others will be to compare notes, on a few others you might have an update for me:

- Field schedule up to July 4 and beyond
- Status of D/U figures and approval
- Bathy Survey: any questions about the figures for the fill-in surveys?
- Status of FSP's and approvals (refresh and update check):
  - Surface Water (portion of the SW/Sed Traps FSP)
  - Fish Tissue
  - Porewater (and Porewater Bulk Sediment)
  - HASP for divers
- USGS sediment data upstream of Willamette Falls (link or file)
